Subject: European HIV/HCV Testing Week - OraQuick HCV Special
Date: Thursday, May 10, 2018 9:55:55 AM

Dear Dr. ,

I am emailing regarding an exciting offer from OraSure Technologies regarding the OraQuick® HCV Rapid Antibody Test. In support of the Spring European Hepatitis-HIV Testing Week from 18- 25 May, we have a special promotion for our OraQuick® HCV test. For any purchase made from now until the end of the Testing Week OraSure and its distribution partners will be making an in-kind donation of tests. These free tests, which are short dated and will expire at the end of the summer, are a perfect complement for any testing you will be conducting during the Testing week. Any tests that you purchase with funds will have the normal dating.

As the manufacturer of the only WHO-prequalified, FDA approved and CE-marked rapid diagnostic test for detection of HCV antibodies in oral fluid and fingerstick blood, OraSure technologies is committed to HCV elimination and hope that our contribution will assist in raising the awareness of HCV infection and also in finding and treating the undiagnosed.

If you are interested in learning more about this offer, please feel free to contact me or our commercial partner in your country. If you need help connecting with our sales colleagues in your area, I would be happy to put you into contact with them.

Thank you for your efforts in the fight against HCV and please keep well.

Sincerely,

David Visanuvimol, PhD
Marketing Manager
